

Re: Emissions testing your **2021 Gladiator 4X4**
to meet government mandated regulations

FCA US LLC (formerly Chrysler Group LLC), with the assistance of Automotive Testing and Development Services, Inc. (ATDS) is conducting a government mandated test program to measure the emissions performance of Chrysler, Dodge, Fiat, Jeep, or Ram customer vehicles. This is part of the In-Use Verification Program (IUV), regulated by the Federal Clean Air Act through the Environmental Protection Agency and the Air Resources Board, which requires vehicle manufacturers to conduct emissions tests on randomized, privately owned/leased vehicles at approximately one year and four years of service. For this reason we are contacting owners whom our records show have a **2021 Gladiator 4X4**.

If you participate in this emissions test program, you will be provided with the following incentives:

- 1) Use of a fully insured loaner vehicle with unlimited mileage and a full tank of fuel, while your vehicle is tested.
- 2) When completed, your vehicle will be returned washed and with a full tank of fuel.
- 3) You will receive a check for \$500.

The emissions test procedure involves operating the vehicle on a dynamometer in a FCA US LLC laboratory in Michigan, under simulated real world driving conditions. The exhaust gas is collected and analyzed for emissions pollutants regulated by the Federal Clean Air Act. A select number of vehicles are also monitored for passive emissions emitted by the vehicle while in an enclosed test cell. The testing typically takes 5 to 8 weeks, and accumulates approximately 100 miles on your vehicle, in addition to the miles driven to and from the test site.

Any questions can be directed to Automotive Testing and Development Services, Inc. at **1-800-865-0379**. Or for more information, visit a brand website (ex. Jeep.com), scroll down and click "Contact Us", click "FAQs", click "General Information", click "What is the In-Use Emissions Testing program (IUV)?".

If you are interested in participating in this program, please **complete** the enclosed **Reply Form** and mail it to Automotive Testing and Development Services, Inc., as soon as possible. A postage paid envelope has been provided. Since we test a limited quantity of vehicles, not everyone who expresses an interest can be accommodated. If your vehicle is selected by FCA US LLC to participate in this program, you will be contacted by an employee of Automotive Testing and Development Services, Inc. (ATDS).
