JT/GLADIATOR TRUCK

MAXIMUS-3 JT/GLADIATOR CARGO DECK SYSTEM

PART NUMBER: JT4000DS

PRODUCT OVERVIEW

Maximus-3 JT/Gladiator Cargo Deck System was designed to solve the problem of limited truck bed space in the back of the JT/Gladiator. By adding a deck/platform above the bed with the MAXIMUS-3 Deck System you can increase your cargo carrying capacity and be able to pack more of your trail gear or overlanding necessities.

MAXIMUS-3 Cargo Deck System is ideal for carrying vital overlanding and expedition necessities such as Power Tanks, off-road jack, auxiliary fuel/water Cans, coolers/fridges, utility/sportsman dry cases, toolboxes, etc. The Deck System is also an excellent solution to carrying an oversized spare tire using 3-point tie down straps (Y-straps).

The deck System is modular and consists of light-weight extruded aluminum planks (5 planks for base model) that bolt to steel bearing rails/flanges to form a customizable platform with up to 7 planks. The Aluminum planks feature channel T-slot tracks which accept most universal accessories and cargo management mounts like accessories bar, snatch blocks, eyebolts, channel nuts, etc. These features make the system more versatile and easier to adapt to accept various mounts and applications.

All steel components are zinc plated and finished with durable textured black powder coat for superior corrosion protection.

WHAT IS INCLUDED:

- Bearing Rails/Flanges (2 side rails & 1 front rail)
- Aluminum Planks (5 planks base kit)
- Hardware Kit

KEY FEATURES:

- ✓ Light weight construction utilizing tempered extruded aluminum planks.
- ✓ Versatile and easy to adapt to accept various mounts and applications.
- ✓ Modular design allows for different planks configurations.
- ✓ Compatible with Decked™ Drawer System.
- ✓ Bolts directly to the body utilizing existing mounting points.
- ✓ Does not require trail rails to mount.
- ✓ Ideal for carrying trail gear: Power Tanks, off-road jack, auxiliary fuel/water Cans, coolers/fridges, utility dry cases, toolboxes, canoes, skis, etc.
- ✓ Capable of carrying oversized spare tire using Y-straps tie down.
- ✓ Optional Accessories Upgrade:
 - Deck Hi-Lift Jack Mount
 - Eyebolt Kits
 - Ratchet Pick Up Straps
 - Jerry Can Holders
 - Hinged Deck Security Cover Upgrade.
- ✓ Durable black textured powder coat top finish.
- ✓ Fits 2020 to current Jeep Gladiator JT model.
- ✓ Compatible with factory trail rails.
- ✓ Easy bolt-on installation.
- ✓ Made in the USA.
